#### **A Little about 'Kana Matra Velanti'**

This is a type of Traditional Kitta, that will reveal how students, artists etc. can easily learn to write in exquisite Devnagri Script. Various consonants & vowels have been classified according to their shapes & styles & their form explained in a very '**easy to understand**' manner. The person using this '**Kitta**' will realize how practicing one letter will help create the base of writing others in the same family. The book also furthers the art of calligraphy by displaying various beautiful compositions using consonants, vowels, numbers & punctuations. It includes some styles by Mr. Achyut Palav.
